Online English
for Academic Purposes

Learn English Online

How it Works

- OEAP offers a true alternative to traditional English language instruction.
- OEAP is offered for the introductory 1000 and 2000 levels of Acadia's EAP program.
- Each level includes Reading, Writing, Speaking, and Listening courses. Complete online activities and quizzes, and learn from online lectures narrated by Acadia's EAP instructors.
- Participate in interactive online "virtual classroom" sessions with your instructor and students from around the world.
- Attend Acadia for the final 3000 level of the EAP program. You'll have the opportunity to grow accustomed to Canadian culture and the university lifestyle before you begin your undergraduate program.

Benefits for Students

- Study English where you want, when you want.
- Take advantage of the time required to make arrangements (visas, etc.) to study overseas.
- Save money on accommodations and other expenses.
- Learn a new language in the familiar surroundings of home.

Registration

- You can register and begin your studies at any time. Visit our website (oeap.acadiau.ca) for more information and to try a demo version of the course.
